

I have just heard that with the implementation of LPFM we may lose a wonderful radio station known as KLOVE. I not only listen to this station at home but when I travel to other areas where there is a KLOVE station. What a tragedy it would be not to be able to listen to this station as it promotes family friendly programming, wholesome values and has a positive and encouraging impact on our community. I think the loss of this station would have a serious negative effect on the youth of our community, as it is one of few Christian radio stations that we are able to get in this area. It provides them with a positive station to listen to in an already negative place that is moving more and more away from the values and beliefs this country was built on. It is quite obvious that pretty much anything goes these days on the tv, on the radio and in life in general and it is a sad thing to see. I think KLOVE serves a real public service by being a station that I can listen to, my kid can listen to as well as my grandkids without having to worry about them being exposed to vulgar language and improper comments. I truly hope that you will preserve the FM station KLOVE. Thank you for your time and consideration of this important matter.
